Inset cabinetry features door and drawer headers that are fitted inside the face frame. This requires precision construction! Because of that, most manufacturers do not attempt inset cabinetry, and if they do, there are significant cost increases and longer production schedules. However, StarMark Cabinetry offers quality, affordable inset cabinetry delivered in an aggressive six week schedule. Inset styles are available with a beaded or flush face frame and choice of concealed or finial hinges. Quality craftsmanship and attention to detail is evident in each inset cabinet that StarMark Cabinetry crafts. Create a spectacular space with the smooth, timeless beauty of inset cabinetry.

zen

Start your day and then end your day in a tranquil setting. A Tinted Varnish finish on oak creates a soothing, harmonious look, while letting the oak grain add subtle texture to a room's design.

This too is soothing: StarMark Cabinetry craftsmen use quality construction methods and quality materials.

They take pride in their work!

The crisp contrast of the Carbon stain

partners with bright white spa-like details, and is counterbalanced with light wood tones and gold tone fittings. The beautiful result? A room that truly embodies the meaning of “sanctuary.” Your StarMark Cabinetry designer can create a personal place of refuge, perfect for a serene beginning and peaceful end to every day.

Custom cabinetry works everywhere

Let's see...the new office needs file drawers for printed documents; small drawers with wood cutlery trays to corral desk items, pens and highlighters; a deep cabinet with a pull-out for the printer/scanner, wall cabinets to hide basics like extra paper and ink, floating shelves to keep quick reference materials at your fingertips, and open shelves to display the personal items that make your office feel like home. Your StarMark designer will help you decide on the just the right colors and countertops. You'll need to bring your computer, a comfortable desk chair and your "let's get to work" attitude.

custom colors

Beyond the ordinary:
custom colors available.

We can create cabinetry that matches most paint swatches. Bring the swatch to your StarMark Cabinetry dealer—that's all it takes to start your custom Tinted Varnish project.

If your heart's desire is a color you spied in a magazine or in a fabric, or you have furniture you want to match or complement, talk to your StarMark Cabinetry dealer about preparing a sample of wood that will guide us in creating a stain for your cabinetry.

A custom stain takes more legwork (from both you and us) than a custom paint, but we'll put our heart into it. With good direction from you and our experience creating custom stains, the legwork will result in a beautiful finish you'll be proud to have in your home. Talk to your StarMark Cabinetry dealer about the additional costs and delivery times for a custom color.

*Fully extended, fully hidden.
Fully satisfying.*

StarMark Cabinetry features soft close.

Imagine this in your home: cabinet drawers that extend fully and close quietly, and cabinet doors that close quietly. StarMark Cabinetry drawers are standard with full extension for easy access, no glide hardware showing, and a whisper quiet close that steers even fully loaded drawers to a smooth, silent closure. Soft close doors are standard on all overlay cabinetry, and on inset cabinetry built with concealed hinges.
